

# Jordan Whistler, Software Engineer

NC, New Bern, USA, (252) 671-3879, jordan@jordanwhistler.info

---

## PROFILE

Fullstack engineer with a strong backend focus, experienced with GoLang, Ruby and Javascript ecosystems. Excited about composable architectures, edge compute, and the evolution of application deployment and development.

---

## EMPLOYMENT HISTORY

Jun 2023 — Present	<b>Software Engineer, Netlify</b>	Remote
	<ul style="list-style-type: none"><li>Built out authorization scheme for Netlify Connect API product</li><li>Implemented API Versioning for Netlify Connect product, including retention and deleting of associated artifacts, potentially reducing database footprint by over 60% for most customers</li><li>Implemented Redis-backed API response caching on Yoga-server for Netlify Connect API pods, including manual invalidation policies and cache keys, reducing response time by 80% on affected requests</li></ul>	
Mar 2022 — Jun 2023	<b>Associate Software Engineer, Netlify</b>	Remote
	<ul style="list-style-type: none"><li>Debugged software, identified root causes, and proposed solutions to software issues</li><li>Developed REST APIs and implemented authentication protocols, such as JWT, to securely expose data to clients, zero post-launch bug tickets on Login with Netlify feature</li><li>Incorporated client geo and IP metadata into Edge Function layer</li><li>Built geo mocking implementation for Netlify CLI</li><li>Reconfigured Analytics and Logging GoLang services to use a more secure environment configuration process using encrypted secrets</li><li>Extracted GoLang headers and created internal package</li></ul>	

---

## PROJECTS

Sep 2021 — Dec 2021	<b>Able - <a href="http://www.able-test.com">www.able-test.com</a></b>	Remote
	<ul style="list-style-type: none"><li>Built split testing application for use with Cloudflare pages sites, implemented using AWS SDK, CDK and Cloudflare Workers</li><li>Implemented analytics dashboard and scripted automated creation of DNS entry for analytics subdomain associated with split test metrics</li></ul>	

---

## EDUCATION

Apr 2020 — Dec 2021	<b>Launch School</b>	New Bern, NC
	An online school for software engineers focusing on the fundamentals of programming and problem solving approaches. Multi-year, full-stack software engineering curriculum with mastery-based learning.	
Sep 2002 — Jun 2005	<b>BSBA, Ohio State University, Columbus</b>	Columbus, OH
	GPA 3.5	
	BSBA International Business Administration	
	Chess Club	
	Grand Prix Radio America (Co-host)	

---

## SKILLS

Node.js	Experienced	Ruby On Rails	Skillful
HTML & CSS	Skillful	GoLang	Experienced
SQL	Skillful	Clickhouse	Skillful
Javascript/TypeScript	Skillful	MongoDB	Skillful
Ruby	Skillful		

---

## HOBBIES

USCF (US Chess Federation) Rated 1700 Chess Player
